What coaches are saying about FlashTiming:

"The equipment has worked great. No more questions on close races and very accurate results in less than a minute from the finish of a race... FlashTiming provided us with the equipment we needed and backed it up with support."

Herb Lommen, Head Track coach, Valley Catholic HS, Beaverton, OR

"After using FlashTiming this season, I honestly don't know how we got by without it. The results are accurate and easily available with just a few clicks of the mouse... I KNOW the results are right."

Mitch Hawkins, Head Track Coach, Clay County High School, Manchester, KY

"The system worked great!! ... The meet was a relatively large one for our area and we would not have been able to finish without the FlashTiming setup. All of the coaches were really pleased with the efficiency of the meet."

Scott Terry, Bishop Groman High School, Tyler, TX

"I have been using Eagle Eye the past two years and your system, to me is far superior because of the integration features with Hy-Tek. Not having to use the Pyro shells is also a huge plus."

Bob Proust, Track Coach, Illinois Valley Central High School, Chillicothe, IL

"The extra flash was the perfect addition to our meets. We ran off three consecutive meets without a single miss by our Pyro-Bright timer. No more running heats two or three times because the flash on the gun is not bright enough... This system can fit into anyone's budget."

Boyd Prince, Head Track Coach, Hurricane High School, Hurricane, UT

"We purchased the FlashTiming system based on price and features. The FAT was accurate, easy to use and downloaded back into Athletic.net."

Eric Lider, Head Track Coach, Lake Oswego High School, Lake Oswego, OR

"The Flashing timing system has been the best investment our Track program has ever made. The quality of the equipment is outstanding and the system is very reliable and accurate. The software compatibility with Hy-Tek and athletic.net has made managing entries, seeding and results a breeze. Most impressive is the training, service and support that Sally and Lynn have provided."

Kevin Landon, Head Track Coach, Sunset High School, Beaverton, OR
