

**Existing FT-FAT users:  
send in your existing  
FT-FAT units and  
update to FT-FAT60  
for \$600.**

## FT-FAT60

**FlashTiming's** radio-linked, fully automatic timing systems allow you to host a quality track meet with accurate times and fast results—*at an affordable price!*

Our **FT-FAT60** includes intelligent radio-linked units for the Starter and Timer as well as our easy-to-use FlashTiming Software to capture and review videos. The **FT-FAT60** delivers finish line images of your race, recorded every 1/60th of a second, with high resolution photo finish results. The race time is encoded on each frame of the video and is saved to your computer's hard drive. Playback of captured results is easy. **FT-FAT60** software provides a unique, easy-to-access file naming system for each heat recorded. Plus, your results can be transferred to your meet management application with a click of a mouse.

FT-FAT60

### COMPUTER REQUIREMENTS:

- 1.6 Ghz, 2MB L2 Cache
- 1GB of RAM
- 100GB Hard Drive
- 1024 x 728 resolution
- USB 2.0
- Windows OS, Windows 7 or newer

### Our new USB FT-FAT60 is sleeker and smarter:

- It uses an NTSC/analog video camera to produce 60 frames per second.
- The Timer unit connects to the computer via USB2.0 and has an integrated digital converter—no batteries, power supply, digital converter or firewire connection needed.
- The system can be purchased with our video camera, or provide your own: any digital video camera that also has NTSC analog video out or any analog video cameras will work with **FT-FAT60**.

**FT-FAT60** includes the Starter and Timer radio units and software for **\$2195.00**.
