

Get the FlashTiming Advantage

FT-RFID Solutions

FlashTiming has teamed with *Agee Race Timing* to bring you 2 powerful RFID Timing Systems!

FT-RFID delivers everything you need to:

- ✦ **Create Your Meet**
- ✦ **Register Athletes**
- ✦ **Program RFID Tags**

Just **setup** your computer, **place** RFID reader and antennas at the finish line, and **distribute** the RFID tags to the runners.

Agee Race Timing software **records** the runners and their times automatically as they cross the finish line, and **scores** the meet.

**Get started
with FT-RFID
for under
\$5000**

Agee Race Timing is packed-full of additional features to promote your meet:

Event Management *Time multiple races simultaneously with the same starting time or with staggered starts. Collect split times in multi-lap events. Swap athletes from one event to another with ease.*

Online Capabilities *Create free event websites with a single click of a button. Online registration is automatically available on the website.*

Reporting Tools and much, much more!

Agee Race Timing software features:

Easily upload photos, course maps, mail-in registration forms, results, or any other file to the website through the software.

Reporting Tools Print Overall, Age Division, or Team results any time during the race by clicking a single button. Numerous other reports are also available. All reports can be exported to Word, Excel, or PDF.

Import/Export Capabilities Import race participants from any Excel file, no special format required. Export athletes and performances to Excel, PDF, or Word.

Built-In Training Tools Come up to speed quickly on all the software's feature with built-in video tutorials, helpful hints and user manual.

Automatic Photo Capture Attach a Canon SLR camera and the software will automatically take a photo of every finisher.

Public Display Attach a large screen TV to the finish line computer and the software can display each finishers name, time, and associated team the moment each person finishes.

Map/Course Creation Built-in course mapping tools powered by RunningAhead.com and MapMyRun.com.

Results Kiosk Display scrolling results on a laptop for your coaches and athletes to view.

Choose the system that's right for you!
