

**NEW for the '25-'26 Season**

# Introducing FT-ID Front-Facing Camera

Add a Front-Facing Camera to any new or existing LS Plus system at an introductory price of \$1,995.

*The new FT-ID camera makes it easy to read bib numbers and identify runners as they cross the finish line.*

**FT-ID video image is time-synced** with the FAT Line Scan image.

*Click on the line scan image and the FT-ID video jumps to the frame with the athlete crossing the finish line.*

**Adjust the image** on the fly to get the clearest image.

*Zoom, Pan, and Advance the FT-ID image frame by frame for the best view of the athletes and their bib number.*

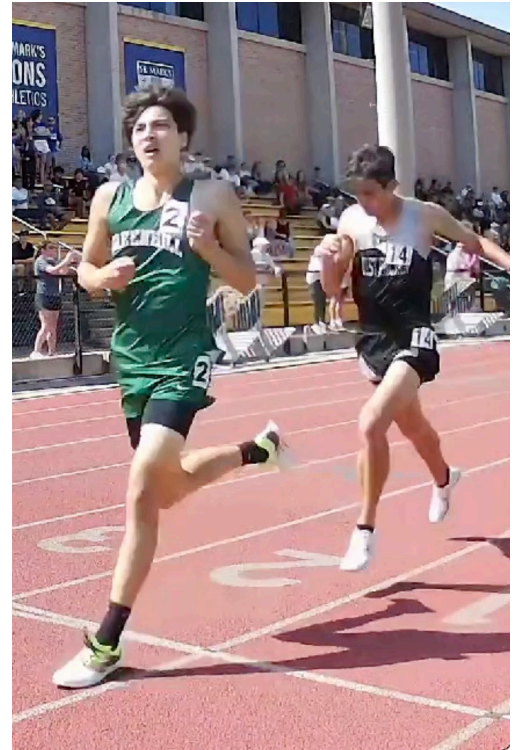

**Simultaneously review** line scan and FT-ID video while capturing.

**4MP camera** can be placed inside or outside the track.

**Captures at 2688 x 1520** resolution at 30FPS.

**Auto focus**

**Water-resistant** aluminum housing

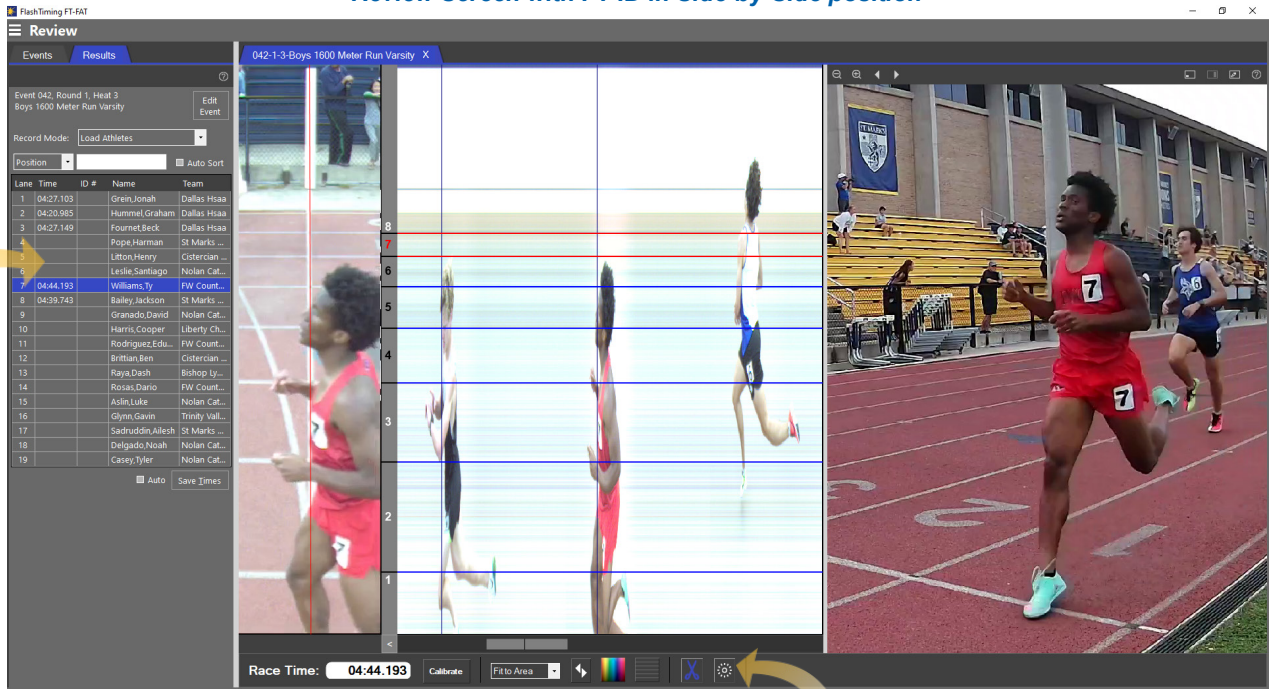

FT-ID Front-Facing  
Camera

FT-ID purchase includes tripod,  
25 feet of network cable,  
and hardshell carrying case.

View the **Finish Line Video**, **Line Scan Image**, and **Front-Facing FT-ID video** at the same time.

FT-ID video can be placed in one of three positions:

- **Side-by-Side** (shown above)
- **Separate Window or Monitor** - Generates the largest FT-ID image possible
- **Docked**: Anchors the FT-ID image below the Results Tab in the side bar (shown below)
